

VIRTUAL REALITY IMMERSION IS COMING
“Letters to 15 VR Companies”

Enclosed are two pages of a seven-page letter I sent to 15 VR companies suggesting ways and urging them to create VR to improve humans. Ray Kurzweil's VR predictions, if true, may make it possible to merge, to complete the saying of Jesus "I in you - You in me".

TRANSFORMING HUMANS THIS CENTURY

The world is in serious trouble. Disaster seems inevitable. For our survival, humans must be transformed into love, cooperation, kindness. Science is opening the doors to enter into great spiritual advancement.

We must move beyond belief. We can change human nature by experiencing who humans can become – experiencing spiritual truths using the predictions of leading scientists. We will assume that each of their following predictions will happen.

Time magazine recently featured two scientists: Michio Kaku and Ray Kurzweil for their predictions. Four of their books: Ray Kurzweil, *The Singularity is Near*, 2005. *How to Create a Mind*, 2012. Michio Kaku, *Physics of the Future*, 2011. *The Future of the Mind*, 2014. Don Tilley will select their predictions of new discoveries from these four books upon which he sees developing possible spiritual happenings. Here is an outline of possibilities.

We'll start with Immersion Virtual Reality. Current Virtual Reality is mostly games, entertainment, and practicing the skills needed for occupations, truck drivers, soldiers, space explorers, and viewing buildings, landscapes. But computer power, knowledge, and skills will advance exponentially so that by the end of this century (and in some situations, by mid-century), Immersion Virtual Reality will be a major force in our civilization and can be applied to transforming human nature. It will consist of IVR seeing, hearing, touching, and intuition.

SCIENTISTS PREDICT	SPIRITUAL HAPPENINGS
<p>1) <u>We can merge with another person.</u></p> <p>Through Immersion Virtual Reality, assisted by nanotechnology and human thought, I can change my body and personality by merging with another person.</p>	<p>1) <u>When I merge with another person:</u></p> <p>Will I possess more confidence and have less fear and loneliness? Will I gain new abilities? Will I continually grow in love? Will I feel constant joy? Will I see situations differently? Can I replace all my negative thinking? Can I activate all the dormant cells in my brain? Will I feel united with all people?</p> <p>Such a merging of personality with another seems to represent the most sublime teaching of Jesus – "I in You – You in Me" (John 16-17). Jesus applied this teaching to his relation to God, but he also applied it to two people on earth. This is the first time in history that we will be able to merge – which may be the highest form of love. A further advancement might be simulating a Spirit filled with love and compassion and merging it with the merger of the two Persons.</p>

<p>2. <u>Creating a new Being.</u></p> <p>Through Immersion Virtual Reality, I can create a new Being (or more than one) and infuse it with my own personality and any desired characteristic, such as love.</p>	<p>2. <u>When I create another Being:</u></p> <p>Will this Being feel great love for me? Will we become close friends? Will it be filled with the spirit of vitality? Will this Being help me to be fulfilled? Will it expand my thoughts and feelings?</p> <p>I will not be lonely again, for it will become close to me, good friends. It possesses all of my senses and neurological correlation of my emotions. It may look like me or not. It will uplift me and reveal to me many hidden aspects of my life. The new Being links to other Beings in the world. I could download my Guardian Angel into this Being (Matthew 18:10).</p>
<p>3. <u>Creating a garden of love.</u></p> <p>Through Immersion Virtual Reality, I will create this enchanted garden with its beautiful blooming flowers that exhibit love, emerging interactive landscapes, trees that make themselves known, endearing, empathetic animals, many simulated Spirits with various gifts to share while guiding me in viewing ordinary things with love, and leading me into ever deeper love of God.</p> <p>After I install all my attributes and the necessary computer chips in my avatar. I will link to it through computer chips in my own body. I will know and feel all its experiences as it walks through the garden of love.</p>	<p>3. <u>Walking in the garden of love.</u></p> <p>Will I now be able to experience love in all that is around me? Will I regularly see love coming to me through my everyday experiences, i.e. walking, breathing, eating, drinking, thinking, and feeling? Will I know how my life matters to God, others, and myself?</p> <p>As my avatar walks in this beautiful virtual garden I feel good, strong, and that I belong. The plants, animals, and Spiritual Beings come to life. They give messages and gifts, define for me who I am, reveal my greatness, and open various layers of God's love for me.. My avatar may enter a cave of joy, gets cleansed by a waterfall, swims with a dolphin in a lake, lets birds land on its shoulder, sees many diverse people, and meets myriad angels who reveal unique ways to uplift me.-- by letting me experience the many ways I am loved.</p>
<p>As Ray Kurzweil claims in <i>The Singularity is Near</i>, "We will spend increasing portions of our time in virtual environments and will be able to have any type of desired experience with anyone, real or simulated, in virtual reality." ...These Immersion Virtual Realities lead me through <u>experiences</u> which uplift me, stay with me, assist me in my journey toward maturity. See the Appendix for more information about IVR.</p>

Dear V.R. Leaders:

Your VR company was selected for me by the library staff of Lincoln. My goal is to inspire and influence your VR company into developing meaningful, life-changing activities designed to transform humans this century. Interested?

Dr. Robert Muller, Assistant Secretary General of the United Nations, was addressing a thousand persons in Iowa City. I was late. I slipped in a side door. But Dr. Muller saw me. He immediately stopped his speech, and shouted, "Here is Don Tilley from Lincoln" – then he alluded that I held a workable vision that could change the world. Last month I disciplined my vision into certain selected scientific predictions which open the door for the development of spiritual practices that could reshape the world.

Please review this seven page "sketch" about how virtual reality, while rapidly moving toward maturity, can transform 1) humans, 2) human nature, and 3) the entire world. (I'm not interested in credit or money)

- 1) On the left side of each sheet, are the scientific predictions, which are likely to occur this century, though difficult for persons today to accept and believe.
- 2) On the right side of each sheet, I've asked provocative questions which can be given descriptors and made operational to fit into IVR devices and activities. Notice how these bring meaning – fulfillment, love, happiness to individuals while "Only to the advance of all together in a direction **in which all together can join** – in the gates of the future, the entry into the super-human – the gates will open." -- Teilhard de Chardin.

In Peace,

Don Tilley, Ph.D.

Some information about Don Tilley

- Developed & led the 12 acre interactive Prairie Peace Park on Highway 180 for 12 years. I developed most of the exhibits. Now closed. See flyer.
- Won the Grand Prize from U. of Calif. Irvine of \$5000 in large essay contest: "What a U.S. President could do to bring world peace."
- Wrote 187 page book titled: "*Visions of Don Tilley*" and led 20 selected persons through it in two sessions. 2016
- Wrote *Transformation of Humans*, intended to update the Bible for our modern age; led 70 persons in a three hour workshop through the book. 2015
- Wrote popular interactive devotional book, *Find Wholeness in Life - The Journey*. 2016
- Led 60 leaders of the City of Lincoln through 50 innovations I gleaned from other cities. 2 hr session 2015
- Am on various boards, including state & local board of Nebraskans for Peace, Kiwanis pres. Organized the Interfaith Group of Lincoln; kept it going.
- Organized three large New Visions Conferences. Had a major role in "Seeking the True Meaning of Peace" in Costa Rica.
